## **Career Opportunity**

The Multi Lake Water and Sewer Authority is accepting applications for a full-time Operator I position. Persons in this classification operate and maintain sewage collection and WWTP equipment.

Successful candidate will have at least one year of public works or construction work experience. Experience in underground utility trades, mechanical repair, or other skilled trades will be considered in lieu of operator experience. Ability to operate/maintain/repair pressure sewer systems, water/wastewater treatment equipment, and residential grinder pumps is preferred.

Persons within this classification will be required to rotate through an on call schedule. Response to after-hours/weekend/holiday emergencies is required. Health/Dental Insurance, training, and retirement benefits are provided. This is an hourly position, overtime eligible.

Salary range: \$14.42-\$18.09 DOQ.
