Item B: Master Plan Review:
Supervisor Rider has requested a mid-course, cursory review of the Master Plan, not a detailed review, as the 2020 Census will offer new data and a possible resident survey (last conducted in 2067) could be conducted in 2021. SEMCOG data and Washtenaw County Maps & data could be updated now by staff. The Township Board would like a more significant detailed review of the Zoning Build-Out Analysis (pg. 67) as well as goals & objectives (pg. 7) to see if they are still relevant.

Chapter 3: Planning Issues and Trends (commence page 16)
Commercial Development
Industrial Development

- Adding reference to Senate Bill PA 631 regarding a new definition of wetlands.

Page 44, Wetlands: Suggestion of adding reference to Senate Bill PA 631 regarding a new definition of wetlands.
Page 34, Dexter Township Soils: Septic Limitations: Mr. Gajewski will check accuracy with the County Health Department as this map indicates the majority of the township is not buildable.
- Discussion of updating data and interspersing with a ten-year old narrative as confusing for the reader.
- Discussion of the 2007 Community Survey and how a new survey’s statistics could change dramatically.
- Discussion of changes in facts that will lead to changes in projections in regard to what can be updated now and what will have to wait for a more thorough review.

Chapter 4: Social Characteristics

Chapter 5: Physical Characteristics
Page 31, Soils: Steep Slopes: Michigan Planner course indicated that anything over twenty-five percent (25%) is a steep slope.
Page 67, Build-Out Analysis by Dexter Township Planning Staff: discussion of date omission on Table 29 (pg. 68) to indicate analysis results and the possibility of updating ten-year old data.
Page 68, Table 29: Dexter Township Build-Out Analysis Results: discussion of updating current dwelling units as this is what the build-out analysis will be base on.
Page 68: second paragraph discussion of using OSC (Open Space Communities) Overlay Districts versus using conventional zoning standards to control growth.
Discussion of traffic in the township and the amount of traffic attributable to non-residential vehicles. Question as to whether the Washtenaw County Road Commission has current traffic counts on Dexter Township roads.

Mr. Burch thanked the Commissioners for all their work on the Master Plan Review.
Mr. Reiser wanted to know who at the Township followed up on cell tower installations.
He also asked where the Bylaws were available (online?) and requested a hard copy.

12. Public Comment:
Tim Zaleski, 8385 Dexter Townhall
Suggested that if the Township were to contract with one waste hauler for the entire township that a performance agreement be part of the contract.

13. Future Agenda Items: July 9, 2019
A) Review of the Master Plan

14. Adjournment: Mr. Burch declared meeting adjourned at 9:36 PM.

Respectfully submitted,
